\$50.00 per day Spectator Fee

Testimonials:

Kristen M.

Ron does AMAZING work for anyone new to working with him. Seamus and I worked with Ron last summer, and it's been a game changer for us. Highly recommend him!

Doreen B.

Best day ever! Lincoln and I have so many take-aways. We will reflect and we will effect our horsemanship with what Ron offered and with confidence, trust and more than anything GRATITUDE.

A student of natural horsemanship for about 35 years I was first introduced to this method from Tom Dorrance and have been riding with Buck Brannaman and Brian Neubert clinicians who travel year round doing horsemanship clinics. My prior horse experience is from my family's ranches in south eastern Oregon. We grew up riding and working cows from the get go. Having this background has given me a pretty good eye for spotting and coaching folks through issues they encounter in their horse relationship. Trying to see things from the horses perspective is something I feel I'm pretty good at and then offering ideas to both horse and rider to build a solid foundation to move forward with. I pride myself in being able to communicate these ideas in a way people and horses understand.
